

Transform Your Practice with Legends Club Ignition Program

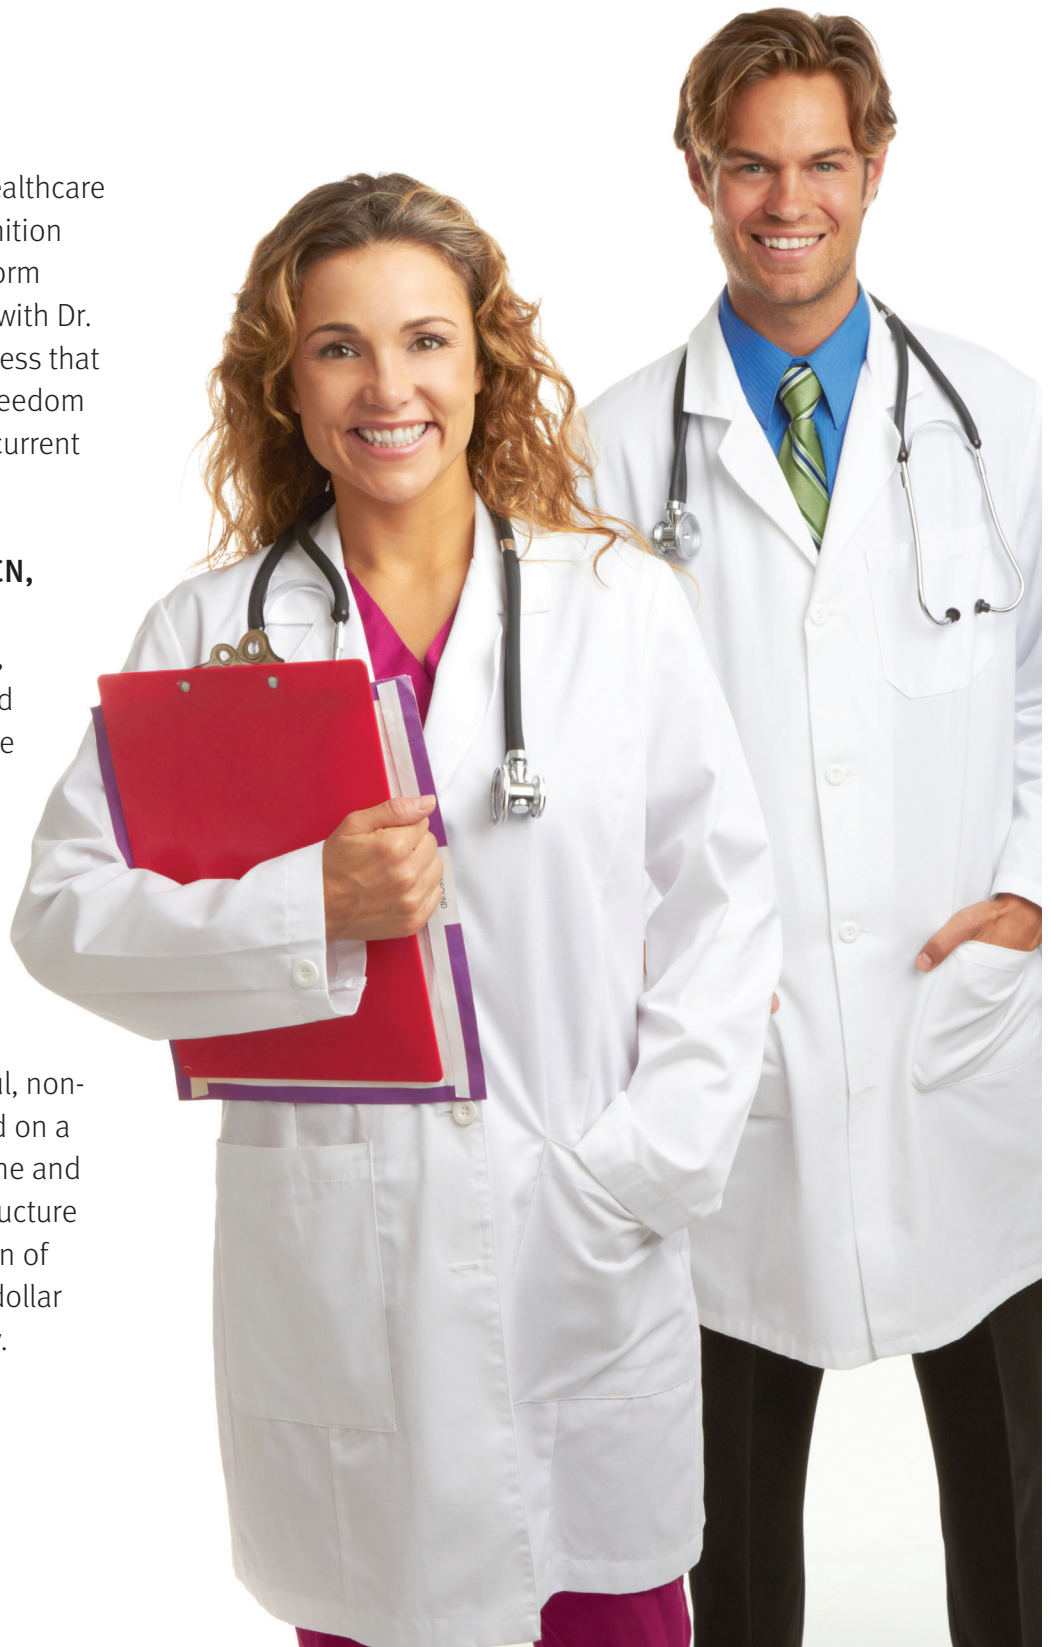

Legends Club is an exclusive group of healthcare practitioners who have leveraged the Ignition Practice Management Program to transform their practice. Metagenics is partnering with Dr. Tom Bilella to teach his blueprint to success that provides you the structure, vision, and freedom to implement proven systems into your current practice model.

Tom Bilella, DC, MS, CCN, CNS, DACBN, CISSN

For nearly three decades, Dr. Tom Bilella has helped people live healthy, active

lives at the Nutrition Treatment Center, where he is the owner and clinical director. A popular speaker and media guest, he also is a leading nutritional consultant to many professional athletes and is the co-author of *Seven Laws for a Red Hot Metabolism*. The Nutrition Treatment Center is a successful, non-insurance practice. The platform is based on a strategic combination of lifestyle medicine and functional nutrition. His unique office structure and systems have influenced the creation of Legends Club and facilitates his million dollar practice in only a 750 square foot facility.

What are other practitioners saying about the Legends Club?

"Only two webinars in and Dr Tom's Legends Club Webinars are exactly what I was looking for. The investment in me, my business, and my team has motivated all of us to take our clients health to the next level."

-Stephanie Solaris, Clinical Nutritionist

"For years I've been trying to start a nutrition program with no luck. I didn't have the time or the know-how, then came Dr. Tom and the Legends Club. Now I'm helping patients in a way that I've never been able to in the past. The Legends Club provides everything, soup to nuts, including all the documentation and a breakdown of what needs to be covered with patients on each visit."

-Dr. Raj

"The systems and structure is not a cookie-cutter model of Dr. Tom's own office. After several hours of discussion he pinpointed the priority issues of our office and gave us immediate resources and answers. He also set in place a personalized plan for phasing in other changes that will lead to long term success, improved office communication, and an excellent client experience."
